

Recommended with the Retractable Hose System

Powerful

Due to its incredible suction strength, this unit is ideal for homes with multiple retractable hose inlets. It will efficiently retract the hose into the piping system, and allow you to vacuum bigger debris.

Convenient

Like each of our models, you can use this vacuum unit with or without a bag, at any time! The bag is full and you're out of extras? Just remove the bag and the bag adaptor, and the self-cleaning filter of your central vacuum will do all the work!

Quiet

Acoustic foam and rubber components soundproof all our units.

Non-allergenic

Given its outstanding filtration system, you're sure to benefit from a healthier environment, whether you use it with a bag or without one! Indeed, all our models are equipped with a Cyclofiltre™ that has been provided with an antimicrobial treatment, so as to prevent the growth of mold, bacteria, and fungi that may be associated with allergies.

Hygienic

Our unique and exclusive carbon dust filtration system* captures that fine black dust produced by the motor, and usually deposited on surfaces surrounding your vacuum unit. This way, you are sure to breathe easier.

H2015	ACYHX2015K
Water lift H ₂ O	170" / 4318 mm
